Summary

Lead Java Backend Engineer with 10+ years of experience building and scaling enterprise-grade applications using **Java, Spring Framework and microservices**. Strong expertise in backend system design, performance optimization, and production support. Proven ability to take ownership of complex modules, collaborate with cross-functional teams, and deliver reliable solutions in high-volume environments.

Known for strong problem-solving skills, client interaction, defect resolution, and continuous learning to deliver scalable, high-quality software solutions.

Work history

Sapiens Technologies - Lead Developer
Bengaluru, India
08/2019 - Current
Project: North America Property & Casualty (P&C) Insurance Platform
Technologies: Java(8-17), Spring Boot, Spring MVC, Hibernate, Microservices, Apache Camel, RabbitMQ, Docker, Kubernetes, Jenkins, JIRA, Git

- Led analysis, creation, and review of **Software Requirement Specifications (SRS)** , ensuring alignment with business, regulatory, and technical requirements.
- Designed, enhanced, and maintained **policy and claims modules** , improving system functionality, performance, and user experience.
- Implemented and validated features through **unit and integration testing** , ensuring high code quality before QA and production releases.
- **Managed and mentored a team of 3 developers** , providing technical guidance, code reviews, and delivery oversight as a module lead.
- Created and maintained **Requirement Traceability Matrices (RTM)** to ensure end-to-end requirement coverage and development consistency.
- Developed high-quality software solutions by collaborating closely with cross-functional teams and following Agile methodologies.
- Recruited in-demand talent to expand and diversify development staff.

Skills

Java (8–17)

Spring, Spring Boot, Spring MVC

Spring JDBC, Spring Data JPA, Hibernate

Microservices, RESTful Design

Spring Security (SAML/SSO), Spring Batch

Azure DevOps, Jenkins, Git, TortoiseSVN, Splunk, JIRA, Docker, Kubernetes

Ant, Maven, Gradle

Apache Tomcat Server, Jboss

Oracle, SQL, DB2

Junit, Mockito, PowerMock

Zul, Javascript

RabbitMQ, Kafka

Education

01/2014
Vindhya Institute of Technology & Science
Indore, India
Bachelor of Science: Electronics & Communication Engineering

Tech Mahindra - Senior Software Engineer
Bengaluru, India
10/2018 - 08/2019
Project: Small Cell Subsystem Manager (SSM)
Technologies: Java (7-8), Spring Core, Spring MVC, Hibernate, JUnit 4, Mockito, PowerMock

- Enhanced software functionality by identifying and resolving complex technical issues.

Key Responsibilities:

- Implemented backend business logic using Java and Spring frameworks.
- Developed scalable applications using agile methodologies for timely project delivery.
- Executed JUnit-based unit testing for SSM software modules, achieving increased code coverage by 80% and enhanced the ability to identify and resolve potential defects
- Supported integration and defect resolution during testing phases.

Tata Consultancy Services - System Engineer
Bengaluru, India
03/2015 - 10/2018
Responsibilities & Contributions
Technologies: Java , Spring Boot, Spring MVC, JDBC, Oracle, Unix, Cron Jobs
Projects:
Global Supplier Management || Delphi Trainee Grooming Tracker (DTGT) || People Search Portal

- Analyzed **business and functional requirements** and converted them into technical designs and Java-based implementations.
- Designed and developed **end-to-end web applications** using **Java** following **Spring MVC architecture**.
- Implemented **backend business logic** and handled database operations using **JDBC and Oracle.**
- Built and enhanced **UI components**, improving performance, usability, and responsiveness.
- Developed **JUnit test cases** for unit testing, functional testing, and regression testing.
- Configured and monitored **cron jobs** for scheduled batch processing and automation.
- Supported application maintenance, defect fixing, and continuous enhancements.

Profile At A Glance

- Strong understanding of **data structures and algorithms fundamentals**
- Experience working in **large-scale enterprise and regulated domains**

- Honors [8th, 2014]
- [8.07] GPA/CGPA

01/2010
Central Academy School
Rewa, India
HSC: Maths, Science
GPA: 69.00

01/2008
Central Academy School
Rewa, India
SSC: Maths, Science
GPA: 67.40

- Comfortable owning modules and working independently in ambiguous problem spaces
